

RACKET™

studios 

SING. RECORD. SHARE.

WHAT IS A RACKET STUDIO?

Racket is a soundproof music recording studio for your venue! Choose a karaoke song and record your very own music videos. We have licensed with the major music producers to bring your guests thousands of songs to sing, record and share - from the latest hits to the classics. Racket has four professional sets of microphones and headphones so it's great for solos, duets or groups. And with our studio quality audio recording, everyone sounds like a star!

MARKETING SUPPORT

Every kiosk is supported by a digital marketing plan to drive consumers into your venue. We implement geo-targeted paid social media campaigns focused on teens and young adults with interests in music/singing within a 10 mile radius of your location. Campaigns will deliver annually: 100,000+ impressions, 25,000+ video views and 400 website clicks.
